

Artwork Template

Please use this template and follow the instructions to prepare your artwork for printing at the proper size and margins.

BLEED LINE

(Extend background images, colors and patterns to this line)

CUT LINE

(This line represents the edge of your sticker, does not print)

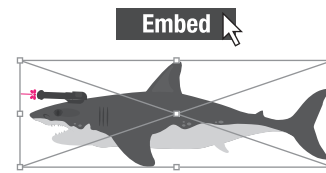

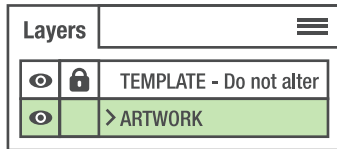

SAFETY LINE

(Keep all text and important items inside this line)

1 Place your design onto the ARTWORK layer and position it behind the Template lines.

2 Outline or Rasterize your fonts and Embed all images. Save as a PDF and submit your file for proofing!

HELPFUL TIPS

- * Keep your text above 5 pt font for best legibility. Example: Sticker • ← **Minimum text size**
- * Print this file out at 100% scale for an accurate size representation of your product.
- * Use CMYK colors in vector artwork or images that are at least 300 dpi for best quality.
- * Please do not move or adjust the Template lines.
